## Skills

### Tech-savvy

### Detail-attentive

### Committed

### Empathetic

## About

Experienced in creating and setting up robotics and automation systems.

Possessing a strong technical and communication expertise that allows to analyze underlying processes at the client's side, plan corresponding solutions, articulate those to implementation teams and manage the development lifecycle.

Languages: EN(B2)/UA/RU

## Education History

Mechanical engineer Sep 2003– Jun 2007

**National Technical University of Ukraine  
“Igor Sikorsky Kyiv Polytechnic Institute”**

- Designing machines and mechanisms

Robotic programming Nov 2016 –Dec 2016

**FANUC Ukraine LLC**

- Basic programming course
- Working with peripheral equipment course

## Work Experience

TimTec Group Jan 2014 – Feb 2022

**CEO**

- Driving the process of creation and starting up robotics welding systems
- Design, production, marketing, clients, finances, accounting

InnaLabs Sep 2011 – Jun 2012

**Head of balancing department**

- Design of the wave gyroscope balancing system
- Creating an automatic balancing algorithm

ROBUD GROUP Apr 2010 – Sep 2011

**Chief engineer–designer**

- Design and commissioning of the ring formwork production line
